Want to do more to help families?

Become a Certified Child Passenger Safety Technician ("CPST")!

As a CPST you could:

➢ Check safety seats for recalls, expiration, appropriateness for child
➢ Educate parents on how to install their child safety seats
➢ Provide community education & training on child passenger safety
➢ Receive Maryland-specific seat check materials for your activities
➢ Attend free periodic update courses & training opportunities

About the CPST certification course:

➢ It's usually 3 days long
➢ It's offered 5-10 times/year in Maryland
➢ It combines classroom instruction, hands-on work with car seats and vehicles, and has a community safety seat check-up event at the end
➢ Open-book quizzes and skills tests are required
➢ It costs $85 to register (a limited number of scholarships are available for qualifying healthcare/EMS personnel;
➢Successful completion of the course gives CPST status for 2 years

NEXT CLASS: March 1-4, Clarksville (Howard Co).
More classes will be scheduled around the state.

To learn about upcoming courses and to register, go to cert.safekids.org. and click on "Become a Tech" and search on State: "MD."
